

In Cablex's rental machine selection, you'll find a wide range of Klauke cutting and crimping tools as well as Greenlee punching tools. Our selection also includes crimping die sets.

Rental Period and Price

- The minimum rental period is 1 day.
- When the delivery method is "delivered," freight days are added to the rental period.
- Rental prices are stated excluding VAT (0% VAT).
- The daily rental prices of machines include shipping costs within Finland.

Rental Machine Order

- Fill out the order form on our website at cablex.fi/en/services/renting/
- Send the completed form as an email attachment to cablex@cablex.fi

Pickup and Return of Rental Machine

Pickup

Pickup and return address: Cablex Oy Warehouse, Kärämäentie 23 / Pickup Door, 20360 Turku.

Delivered

- Ordering Rental Machine: Cablex arranges the freight according to the delivery details provided in the order form.
- Returning Rental Machine: Call Kaukokiito's transport order service at 0100 4321 (call cost: €1.17/call + €2.00/min + local/mobile network charge) and provide the following information:
 - Recipient: Cablex Oy, contract number 366176
 - Sender's details: Name, address, postal code, and city
 - Shipment details: Weight, dimensions, and any other relevant information for pickup
 - Pickup time: When the item is available for pickup and the contact person responsible for the pickup arrangements.

Klauke's cutting and crimping tools represent top-quality industry standards, ensuring durable and compliant connections. It is essential that the cable lug, crimping tool, and crimping dies follow the same dimensioning standards. Additionally, the cable lug or splice connector must be compatible with the conductor type being used.

With Greenlee punching tools, you can create precise and clean cutouts quickly and effortlessly. They are suitable for punching plastic, aluminium, steel, and stainless steel. The Slug-buster punches split the remnants for easy and efficient removal.

Please note: A hydraulic tool is required for stainless steel and larger rectangular punches.
